Rioting Breaks Loose in Terre Haute for the First Time.

Fort Wayne A. R. U. Notifies Newspapers to Go Slow - Big Four and Wabash Now Running Trains.

Special to the Indianapolis Journal. HAMMOND, Ind., July 11.-The basis of operations of the strikers seems to have changed from this city to outlying suburbs and they are giving General Robbins and his soldiers no little amount of trouble. This afternoon the General received word that the riotous spirit had broken out at Whiting, and that the mob was ruling the town. Later on Sheriff Frederich came down from there and confirmed the report and two companies of militia were at once sent to that point and another to Roby. All kinds of rumors are affoat about the trouble there, but none of them could be traced to any authentic source except that two deputy United States marshals had been run out of town for interfering with a mob who were trying to stop a train on the Fort Wayne railroad. Shortly after the militia were started, word was received by General Robbins that three companies of United States troops had reached there to assist the militia in suppressing the rioting. It is feared that there will be trouble before morning. Up to 11 o'clock to-night nothing serious had occurred and quiet had been restored.

Another attempt was made last night to burn the Monon bridge at the Little Calumet river, but through the vigilance of the militia this was averted. The incendiaries came down the river in a boat and were saturating the bridge with gasoline and coal oil when they were discovered. The culprits, three in number, at once beat a retreat, and the guards having no boat could not follow them. Several shots were fired, but owing to the darkness the effect could not be learned.

The companies detailed by General Robbins for special duty to-night are Companies B, of Rochester, and F, of South Bend, at Whiting; Companies F. of Elwood, at Roby, and A. of Marion, at the Monon bridge. Col. O. P. Lee, Maj. G. W. Feasor, of South Bend, and Assistant Surgeon Kyle accompanied the soldiers to Whiting. Company A. of Marion, will patrol the Monon tracks from this city to St. Johns, fourteen miles south of here. Company G, of Muncie, has been detailed as guard at General Robbins's headquarters. Lieut. Dan Thompson, of Battery A, returned to his home at Indianapolis topight, leaving Orderly Sergeant Navin in command of the battery.

TWO PRIVATES HURT. Private Horton Acton, of Company E of Bluffton, met with a severe accident this morning. He was with his company, which was detailed as guard at the Monon bridge last night, and after being relieved this n waing was returning to this city. He fell asleep while riding on the engine and fell off, receiving an ugly scalp wound and bruises about his hip and shoulder. He was sent to his home this

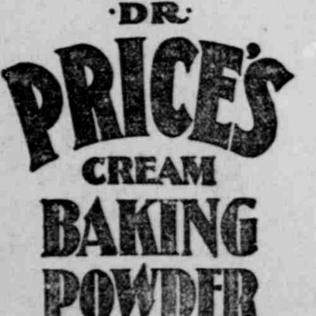

Private G. W. Wells, of Company G, Muncie, was quite badly hurt last night while crossing the track between the Mo non and Erie depots. He was tripped up by an interlocking switch wire, and fell and broke his left knee cap. He also returned home this morning. The soldiers are in remarkably good health, not a case of sickness being reported at sick camp a this morning. Quartermaster-general Compton received a carload of groceries from Indianapolis this afternoon.

What was supposed to be a gas-pipe bomb was found under the Erie platform this morning. It was taken to headquarters and, on examination, found to contain nothing but sawdust. After the examination the boys breathed easier.

The G. H. Hammond company received a t consignment of cattle from the stock yards to-day, the first this week, and have ordered their men to return to work tomorrow morning, at 6 o'clock. They have notified their men that if they refuse to return to work to-morrow morning they will transfer their business to some point where they can run it to suit themselves, The action taken by the citizens' mass meeting last Monday night, in passing the resolutions reported in yesterday's Journal, is being severely denounced by some of the better class of citizens. The meeting was made up largely of strikers and their sympathizers, and the resolutions created considerable discussion at the time. J. M. Lautman and Rev. A. H. DeLong both refused to sign the amendment which was tacked on the resolution. There is a great deal of talk among the better citizens of calling another meeting to pass resolutions condemning the action of the former meet-

The action taken by General Robbins in suppressing the Chicago Daily Times has union engineers are having trouble with created considerable discussion on the streets, and, of course, the strikers condemn the action. VIOLENCE AT TERRE HAUTE. E. & T. H. Train Derailed and Other Trains Stoned.

Special to the Indianapolis Journal. TERRE HAUTE, Ind., July 11.-The first violence since the strike began here occurred this morning. The 5-o'clock train from Evansville over the Evansville & Terre Haute was derailed at Main street. A stone had been placed in a frog of the track. No serious damage was done. Workmen at the Chicago & Eastern Illinois coal dumps were stoned by a crowd of toughs and one man was injured. One of the two policemen on duty wanted to arrest the stone-throwers, while his part-

ner protested that this was not violence, and that he was to act only in the case of violence being committed, and finally wanted to whip the other policeman, saying he was a "scab." The C. & E. I. people have had very poor police protection, and there are indications of destruction or property. The company has a large number of new men to take strikers' places. They are kept in coaches in the yard. The Big Four expects to resume business at full capacity to-morrow. Many new men have been brought here and to Mattoon to take the places of strikers. The Evansville & Terre Haute is not interrupted in its services anywhere except here, and will put new switchmen to work to-morrow. Since the strike began none of the roads have undertaken to put in new switchmen, but with closed freight houses have been playing a waiting game. The Vandalta will post a notice in the morning calling on all men who are on strike to return to work Friday morning.

The Chicago & Eastern Illinois to-day got a freight train through Norton Creek, where the Hungarian and Polish miners upset cars and threatened the lives of all who tried to run freight trains past there. The ten deputy United States marshals and thirty-five deputy sheriffs were scared away, as also were many of them from Clinton, which is near by. The marshals declined to go on duty again there unless their number was greatly increased, and remained in Terre Haute all day. When the freight passed Norton Creek late this afternoon there was no sign of interfer-

Pennsylvania and Nickle-Plate Moving Some Trains at Fort Wayne.

Special to the Indianapolis Journal. FORT WAYNE, Ind., July 11.-This afternoon a committee of American Railway Union men called at the daily newspaper offices in this city and demanded that the papers remain neutral on the boycott situation. The committee stated that the demand was official, and action would be taken accordingly if the newspapers declined to be neutral.

The backbone of the strike in Fort Wayne is thought to be broken. Superintendent C. D. Law, of the Pennsylvania, had a meeting with each department of his men separately, to-day, and the result is that all of them that did not refuse to go out when their turn came reported for duty this evening, and freight trains are now going out, and to-morrow morning all the local freight trains will start, and the road will be entirely cleared of accumulated freight by Sunday. Mr. Law gave all the men until 5 o'clock this evening to meet him. When that hour arrived all had reported. Those who refused to go out on their trains were dismissed and their pay handed them. Many could not be found when their runs were due. These will be suspended until each case can be fully investigated. The Pennsylvania line is now in full operation from end to end and in

the middle The Nickel-plate men have reported for duty, and that road will be in full operation to-morrow. The Wabash is the only road now tied up. They are moving their passenger trains all right, but have not been able to move more than one freight a day. Knights of Labor, Fort Wayne branch, today received Grand Master Workman Sovereign's order to go out on strike. No immediate action will be taken on the order, says Mr. Kasten, an active member, until the regular meeting of the assembly, which will be held to-morrow night. The affairs of the knights of Labor are of a secret nature, and but little is known of the order in Fort Wayne, but the general impression prevails that the local assembly lacks the strength to order a general strike in Fort Wayne.

MAY SURRENDER CHARTER. A. R. U. Men All Go Back to Work at

Special to the Indianapolis Journal, ANDERSON, Ind., July 11.-The blockade of the Michigan division of the Big Four was raised in this city to-day by all the operatives of the A. R. U. and their sympathizers returning to work. The switch crews cleared the yards for the first time in a week, and freight is moving both north and south. It is quite likely that the local branch of the A. R. U. will surrender its charter.

DAMAGED BY GREEN HANDS. Much Trouble Running Engines with New Men.

Special to the Indianapous Journal. WABASH, Ind., July 11.-Although the strike on the Big Four and largely on the Wabash is now powerless, the American Railway Union in this city is still out, and this evening B. B. Ray, the organizer representing Debs, held an open meeting at the courthouse. He not only urged the union to stand firm, but pleaded for sympathy in the fight of labor against capital. A large crowd was attracted to the courthouse by the announcement that Ray would speak. Only three engineers on the east end of the Wabash were loyal to the company during the fight, and nonunion men have been hired to take the places of all strikers. Some of the old men to-day applied for reinstatement, but were told that the new men would remain. The ponthe engines, the trains are delayed because they cannot keep steam, and four passenger trains have been cut out because they had broken down in the last twentyfour hours. Much damage has been done

to the machinery by green hands. FIGHTERS AT BRAZIL. Nonunion Men Glad to Get Out of Town.

Special to the Indianapolis Journal. BRAZIL, Ind., July 11 .- So much excitement had been wrought up among the strikers and their sympathizers yesterday afternoon by the C. & E. I. officers importing men to fill the positions of the strikers, it was deemed advisable to refrain from attempting to take a train out yesterday afternoon. The engineers and firemen that arrived in the afternoon sent word to Chief of Police Lauderback if he would furnish them protection to the Vandalia depot they would leave town. Their re- her by her builders. She attained a maxiquest was granted and they left on the first train. Fifteen United States marshals arrived in the city from Indianapolis last night and went immediately to the C. & E. I. roundhouse, where they are now holding fort. It is said no attempt will be made to run a train this afternoon, and as everything is quiet and orderly now no trouble is apprehended.

To-day Scott Dunbar's stave works closed down, throwing a large number of men out of employment. The merchants established a complete overland freight route between this place and Fort Wayne, hauling their goods with teams a distance of forty miles. In three days no mail trains reached this place, and George Burdge, the enterprising agent for the Journal, brought the papers overland from the nearest mailing point, a distance of thirty miles, the customers gladly paying the dif-

ference in price. From Pendleton Soldiers. Special to the Indianapolis Journal. PENDLETON, Ind., July 11 .- Major Henry Post, No. 230, G. A. R., held a large meeting to-night and unanimously adopted the following

"Resolved, That we, as veterans of 1861 and citizens of Pendleton and vicinity, most emphatically indorse the action of the President of the United States and Governor Matthews, of our fair State of Indiana, in their efforts to uphold the law and maintain order against lawless men. "Resolved, That we pledge to them our moral support and physical assistance, if necessary, in restoring peace and quiet.'

Big Four Running with New Men. Special to the Indianapolis Journal. MATTOON, Ill., July 11.-The officers of

the Big Four railroad brought sixty men from the East this morning to fill the places of striking train crews, and a number of trains were started out to-day. Some of the old men and most of the switchmen returned to their posts, but a good many of the firemen and brakemen failed to take advantage of the last chance the company offered to resume their runs.

Strikers Playing Ball.

Special to the Indianapolis Journal: FRANKFORT, Ind., July 11 .- There are no new developments in the Clover-leaf strike. The company has men sufficient to to man all trains, and the officials express the belief that so far as the Clover-leaf is concerned the trouble is over. The strikers have formed themselves into ball nines and spend most of the time at the fair grounds playing ball.

Friends of the Late General Pay Tribute to His Worth.

Special to the Indianapolis Journal. WASHINGTON, July 11 .- A meeting of the friends of the late Gen. Daniel Macauley was held at the Ebbitt to-night to take public action to express the deep regret at his untimely death. It was a large meeting of men who had known and loved Macauley. There were men from Indiana, Illinois, New York and elsewhere, but not a single member of the Indiana delegation was present. Hon, Charles Denby, United States minister to China, was made chairman and L. T. Michener secretary. Major Huxford, the recorder of the Loyal Legion, and Captain Lockwood drafted resolutions expressing the high appreciation felt of the deceased as a gallant soldier, an honest, capable official and an eloquent orator and a brilliant writer. A committee consisting of General O'Bierne, of New York, Col. Charles D. Lincoln, Major W. D. Huxford, Mayor George A. Bartlett, Robert J. Wynne, Lucian Jones and Gen. W. W. Dudley was appointed to arrange for a commemorative service to be held at a later date. Eulogistic addresses were made by Gen. John C. Black, Robert Tyler Jones, of the confederate service, Joseph Nichols, L. T. Michener, Capt. A. H. Mattox and General O'Bierne and Mr. Denby. No information has been received at the State Department of Gen ral Macauley's death, and there is still a faint hope that the sad news may be untrue. No mail can be expected from Nicarauga for severa; days, but it is supposed that the United State consul at Greytown will furnish the department with a full account of General

They Stand for Law and Order and Punishment of Crime.

ST. PAUL, July 11.-Over one thousand Republican delegates met in State convention here to-day. After the selection of ex-Governor Barton as chairman and appointment of committees Hon. Roswell G. Horr, of Michigan, was introduced and spoke at length on the protective tariff and money question. In the course of his speech Mr. Horr ridiculed the idea of "bringing Pullman to time by shutting off the food supply of all the rest of the United States." He wanted the Republican party to stand by law and order and not truckle to any lawless element. Gov. Knute Nelson and Lieut. Gov. Clough were renominated by acclamation. Albert Berg was nominated for Secretary of State on the second ballot. R. C. Dunn was nominated for State Auditor on the third ballot

The labor resolution declares: "We earnestly advocate such legislation as will secure the peaceful adjustment by arbitration of differences arising from time to time between employers and employes, and condemn unqualifiedly capitalists and others who refuse to settle such differences along such peaceful lines. The wanton destruction of property, whether private, corporate or public, should be prevented, and mob violence suppressed at all hazards. We stand for law and order; for the punishment of crime, and for the lawful redress of all wrongs.

WORRIED OVER BUSINESS.

Suicide of P. C. Hauford, a Prominert Chicagoan.

CHICAGO, July 11 .- P. C. Hanford, well known as the Chicago manager of the Standard Oil Company, committed suicide by shooting himself at the Hotel Metropole, this city, this morning. He was supposed to be very wealthy, but worried over the financial situation. Mr. Hanford was also vice president of the National Linseed On

Company. Deputy Coroner O'Brien held an inquest this atternoon. Miss Blanche Hanford, a daughter of the deceased, testified that it had been the custom of her father to open the dining room door at 8:30 o'clock each morning so that breakfast might be served. He did not appear and at 9 o'clock his daughter went to his room and discovered him lying dead on the floor. Miss Hanford said her father appeared to be in his usual health and spirits when he retired Tuesday night. The witness added that for some time her father had been worried over business matters, but she never saw or heard anything in his actions or conversation that indicated that her father

Judge Grosscup Talks Sharply to the District Attorney, and Mr. Olney Disavows Intention of Wrong.

TEXT OF THE INDICTMENT

Labor Leaders After General Managers of the Railways.

They Charge Them with Obstruction of the Mails and Claim They Ought to Be Indicted as Well.

CHICAGO, July 11 .- Judge Grosscup sent for Debs and also for District Attorney Milchrist to-day. When both were before him he said: "I understand from statements published in the newspapers that among the books and papers taken from this defendant there were private letters, some of which were still unopened. I want to know the truth about the matter."

"It is true," said the District Attorney, "that the books and papers in Debs's office were seized by government officers and some of them are private papers, but since they came into possession of the government the papers have been locked up in the vault of my office and have not been interfered with by any one.'

"Mr. Debs," said the Judge, "stands accused in this court of a grave crime, but he has all the rights of a private citizen. His private affairs are not to be inquired into, and if you have in your possession any private papers or letters or other documents of that character it is your duty to return them, and without making any copies of them. If there is any question as to the character of any of the papers, whether they are private or not, the district attorney will bring them before the court."

Mr. Milchrist said the officers who made the seizure had taken papers which they should not have seized. This was due, he said, to the excitement of the moment and not to any desire to disregard private rights. The papers, Mr. Milchrist said, had not been copied and had not been seen by any one since they were brought to this office. The sealed letters had not been Mr. Debs said he was satisfied with the

statement of the district attorney. "I desire to thank the court," he said, "for the kindness, and consideration and the protection given me. The leader of the strike then accompanied Mr. Milchrist to the latter's office and the letters which were seized last night were given to him. All the books of the railway union and the records, filling sev-

eral large baskets, were kept for the use of the grand jury The federal officials, from Judge Grosscup down, are not a little annoyed over the blunder made by the overzealous deputy marshals and postoffice inspectors who seized President Debs's papers. A labor leader says: "The seizure was wholly illegal, unjustifiable and unwarranted. It was an outrage against the rights of the citizen, committed by ignorant petty officials their zeal to serve the corporations which are prosecuting Debs and his associates. It was a flagrant violation of law, decency and everything else that makes up the lib-erty of the individual. So gross was this crime that Judge Grosscup, in open court to-day, virtually apologized to Debs, and ordered that his papers be returned to

L. W. Rogers, editor of the Railway Times, and one of the men indicted by the federal grand jury yesterday, said today he thought the proceedings of the past twenty-four hours would tend to solidify "The seizure of President Debs's personal mail," he said, "and all the offi-cial documents of the union seem to me an outrage such as one could expect in Russia alone. There has never been a parallel in this country, I am sure. To describe it as high-handed and unjustifiable would be but a weak expression of the truth in the case. It was an indignity that will bring more sympathy to us and will show the means that are being used to defeat the laboring man in a battle for organization. As to the walkout among local trades, although we have not received reliable accounting of the number of men to quit to-day, I feel certain of its ultimate success. Few unions will go back on their promises, and all organizations have given their word to go out.

Disavowed by Olney.

WASHINGTON, July 11 .- Attorney-general Olney to-day, after reading the accounts of the seizure of Debs's private papers as published in the morning papers, expressed his regrets at this action of the government officials, and at once sent the to his clients. At the conclusion of Mr. following telegram to Special United States | Curtis's speech court adjourned until to-Attorney Walker:

"Seizure of Debs's papers is not according to law, and should be publicly disavowed and papers at once returned. If seizure is not strictly and technically law-ful papers should be returned. The government in enforcing the law cannot afford to be itself lawless, nor even if they be within its strict right, should measures be resorted to which are unusual and come dangerously near invasion of personal rights. The government is too strong and its cause too righteous to warrant or require anything of that nature. Please wire at once what has taken place and what is done in pursuance of these instructions." It is assumed that it was in obedience to this telegram that action was taken under which the papers were to-day surrendered and the act of seizing then, disavowed.

WANT MANAGERS INDICTED.

Strike Leaders Say Railways Officials Obstructed the Mails. CHICAGO, July 11.-It is reported that when the federal grand jury concludes its investigation of the American Railway Union it will begin inquiry into the policy and methods of the General Managers' Association. Among the leaders of the workmen the charge has been made openly and repeatedly that the obstruction of the United States mails and the interruption of to the general managers as to the railway union. It has been alleged that the general managers agreed among themselves that no trains should be run on any of the roads until all had gained their points in dispute with the men. This was done, it is charged, to hold back such companies as showed an inclination to treat with its employes and bring about a resumption of traffic on its own lines. It is claimed by the men they can prove that telegrams were sent out by the managers' association ordering certain lines to send out no trains till a designated scheme had been accomplished. All this, the men insist, is as clear a case of conspiracy on the part of the general managers as the acts of Debs and his associates, and renders them indictable for conspiracy. Judge Grosscup and District Attorney Milchrist have said that justice will be meted out impartially to all violators of federal statutes. Judge Grosscup said, when questioned on the subject: "I have no doubt that when the grand jury shall have finished the particular matter it is now investigating it will turn its attention to others who may have violated the law. It will widen the scope of its inquiry so as to include all persons who may have interfered with or obstructed interstate commerce or the United States mails in any way or by any "Will you give the grand jury additional instructions on that point "I cannot discuss that point now. I will

do whatever is necessary to enable the grand jury to do its full duty. But the labor men have little faith in the special federal grand jury. They stick to their opinion that the grand jury was drawn, not to investigate violations of law, but to return indictments against the Raliway Union men and their sympathizers. "The grand jury will work for the corpora-tions," said a labor leader to-day, "Most of them are remarkably friendly to the corporations and opposed to the men. Some of them think the working man is a slave who has no rights but to labor and let his own family go uneducated, unfed and unclothed that his employer may live on the fat of the land; and if the workingman demurs he should be shot or bayoneted. Take the man Holbrook as a sample of the impartial grand jury. There is a man who, less than two years ago, went through the land upholding and indorsing in public and private every iniquity of the famous Caregi, who was starving his employes at nestead and at the same time robbing

armor plate. No doubt Mr. Holbrook enter-tains the same high respect for Pullman. What sort of 'justice' can the workingman expect from a grand jury of Holbrooks?" teen years' sentence.

THE CHARGE AGAINST DEBS.

Text of the Indictment Returned by the Grand Jury. CHICAGO, July 11 .- The indictment upon

which Debs was arrested yesterday is

worded as follows: "The grand jurors for the United States of America, inquiring for the northern division of the Northern district of Illinois, upon their oaths, present that Eugene V. Debs, George W. Howard, L. W. Rogers, Sylvester Keleiher and James Merwin, of the city of Chicago, and in the said division and district, on the 30th day of June, in the year of our Lord, 1894, and in the division and district aforesaid, unlawfully did conspire together with divers other persons, to the grand jurors unknown, to commit an offense against the said United States: that is to say, knowingly and willfully obstruct and retard the passage of the mails of the United States; and to effect the object of said conspiracy, the said James Merwin, on the day and year aforesaid, at and in the division and district aforesaid, unlawfully did throw and open a certain switch of the Chicago, Rock Island & Pacific railway, a corporation then and there being, and thereby derail, disable, stop and obstruct a train of railway cars whereof one was then and there carrying the mail of the said United States, against the peace and dignity of the said United States and contrary to the form of the statute, in such case made and pre 'ed."

The federal grand jury resumed its work investigating cases growing out of the strike this morning. The Michigan Central railway had a large number of witnesses in attendance, and the cases under investigation were mainly those growing out of the rioting at Kensington, Englewood and Grand Crossing, District Attorney Milchrist said this morning that scores of individual indictments will be returned against rioters who were seen to commit lawless acts. The cases of all the men arrested during the last ten days and taken before Commissioner Hoyne will be considered by the grand jury without the necessity of a trial in the Commissioner's of-Switchman Merwin was admitted to bail

EVIDENCE ALL IN AGAINST BOYS WHO STONED ENGINEER BARR.

Rev. Hensen, of Brazil, Mysteriously Disappeared on His Bicycle-Elwood Iron Works Strike.

BRAZIL, Ind., July 11.-The usual large crowd was present at the opening of the Superior Court this morning to hear the trial of those accused with murdering engineer Barr. Ed Monk, of Harmony, one of the nine on bond for conspiracy, was the first witness, this morning. He said he had nothing to do with throwing stones. Tom Quigley, another of the alleged conspiraators, coroborated Monk's testimony He said the crowd he was with was laughing and talking about a ball game at the time, and denied that there was any talk about the coal trains. Charles Slack was recalled by the defense to show what was promised him by the State's attorney or officers at the time of his arrest if he would turn State's evidence. He was very forgetful on the subject. Robert Hill, postmaster of Harmony, test'fied to the good character of the four Locused. Here the defense rested and the rebuttal began, the State calling R. L. Kennedy, one of the grand jurors. He said there were no threats or inducements brought to bear on either of the boys to influence them in the matter of testimony. J. N. Morgan, another of the grand jurors, coroborated the previous witness's testimony. Marshal Louderback told of the arrest of the boys. The marshal admitted he got \$50 from the Vandalia while working on the case. Esquire ames coroborated Louderback. Here boun sides rested their case and Prosecuting Attorney F. A. Horner made the opening address for the State. He said affairs had reached a point where the laws of the country must be obeyed and murder and riot must not accompany strikes. He pointed to all the great labor leaders who issued edicts admonishing their followers not to commit violence in an effort to gain their point. Mr. Horner was followed by attorney S. W. Curtis for the defense, who pathetically described the condition of the defendants and showed up the testimony in a manner favorable morow morning, when E. S. Holliday will make the closing argument for the defense, followed by George A. Knight in his closing speech for the State. The case will be given to the jury at noon.

MINISTER MISSING.

Rev. Hensen Went Off on His Bicycle and Did Not Return.

Special to the Indianapolis Journal BRAZIL, Ind., July 11.-There is some excitement here over the mysterious disappearance of Rev. F. E. Hensen, a prominent Methodist minister of this city. He purchased a new blcycle Monday evening and began learning to ride. He went west on the National road and has not been heard of since. His family consists of a wife and six children, and those acquainted with his domestic affairs claim that happiness and contentment prevailed in the family. A young man named Henderson, who drove to Terre Haute yesterday, claims that he saw a new blcycle standing in a fence corner several miles west of this city, near Seeleyville. Search was made in that locality, but no trace of the missing man could be found. There is much speculation as to the cause of his mysterious action. Some believe he has been foully dealt with, but the prevailing theory is that he was attacked with meninterstate commerce was due quite as much | tai trouble and is wandering aimlessly around.

District of Evansville.

\$60,000 Blaze in the Lumber and Mill Special to the Indianapolis Journal. EVANSVILLE, Ind., July 11.-The lumber district of this city is being visited by a very disastrous fire, which began late tonight, and, it is feared, will not be extinguished for some time. The fire originated in the Helfrich sawmill, on the river bank in the center of the district, and only a few hundred yards from the large cotton mills, which employ about one thousand people, and which are likely to be con-Before an atarm was sounded the whole mill was in flames, and by the time the fire department arrived on the scene the strong wind had caused the flames to fire the surrounding lumber. At midnight over one million feet had been consumed, mill belonged to Adam Helfrich, and was valued at \$40,000. The lumber also belonged to Helfrich, and was valued at \$16,000, all of which was insured at about 80 per cent. The fire is still raging, and will no doubt consume all of the surrounding lumber, which is estimated to be over twenty million feet.

His Good Name Saved Him.

Special to the Indianapolis Journal. MUNCIE, Ind., July 11.-This evening Michael Gorman was released from jail, where he has been confined since April 20, charged with murder in the first degree. Gorman and Frank Benadum were jointly charged with murdernig Lemuel Bailey, the crime for which Benadum was found guilty. After this conviction Prosecutor Leffler was confident Gorman was innecent, and accordingly had the man released. Gorman is well known in Greencastle, from where he came to Muncie. His good name saved him. Frank Benadem, convicted of the murder

of Bailey, was brought here from Winchester to-day, and was before the board of pension examiners asking for an increase from \$8 per month. Bright Outlook for Alexandria.

Special to the Indianapolis Journal. ELWOOD, Ind., July 11 .- The outlook at Alexandria is very bright, and by September the DePauw window-glass works will be running at full capacity, employing 450 operatives. The United window-glass plant will be in operation and employ 450 men, and the Alexandria's Window Company's plant will have 150 men at work. The De Pauw plate-glass works will have 400 laborers on its pay roll, while the mammoth plant of the Lippincott flint-glass works will furnish employment to 600 employes, making a total of 2,000 glass workers in Alexandria alone.

Broke Her Neck by a Fall. Special to the Indianapolis Joarnal. UNION CITY, Ind., July 11.-Mrs. Joseph Dennison, residing about six miles northeast of this city, was killed this morning, about 8 e'clock. With her husband, she had been in Union City trading. They were on their return home in a buggy. About a mile from their farm the horse shied at a dog in the road, and Mrs. Dennison pitched forward over the front wheel into the road, striking on her head. She was carried to the nearest house and Dr. Reeves, of this city, sent for. The woman was dead before he arrived. Her neck had been broken.

Bedford Stone Quarries Sold.

Special to the Indianapolis Journal. BEDFORD, Ind., July 11.-In accordance with the order of court, the property of the Bedford Stone Quarries Company was sold yesterday. C. C. Richer, of Chicago, was the purchaser. It is thought he represented the former owners and that the property will remain virtually in the same hands. Only \$7,700, it is claimed, was the amount realized, while the indebtedness against the company will aggregate about half that amount. Claims against the company will probably be settled within the space of three months. Court Records Stolen.

GREENSBURG, Ind., July 11.-Several days ago order book No. 39 was stolen from the county clerk's office, and the news of the theft will create a sensation here, but not as great as when the guilty party is arrested. The clerk had cause to refer to this record, and, to his great surprise, it could not be found. It contained the proceedings of the last two terms of the court, and embraced the entries of the Duke murder case and several gaming cases. If the book is not returned the guilty party will be prosecuted for a felony.

Special to the Indianapolis Journal. ELWOOD, Ind., July 11 .- A general walkout occurred at the Elwood iron works last night, the employes refusing to work any longer unless they were paid for several weeks' work already done. It seems the pay has been slow, and they got badly in need of money and determined not to work longer until they got it. The difficulty will be adjusted this evening, it is thought, and the men resume work perhaps in the morn-

CHRISTIAN ENDEAVORERS. Fifteen Thousand Delegates at Cleve-

land and More Coming. CLEVELAND, O., July 11.-The Christian Endeavor committee of 1894 estimates that there are fully fifteen thousand delegates in the city, with more coming. Today the trustees of the National Union of Christian Endeavor met and heard the applications of the different cicles that want to secure the convention for next year. To-night there were fifteen big rallies distributed over the city geographically so that all the people who desired might attend some one of them. These were for the citizens of Cleveland especially, as the regular sesion of the convention will of necessity be limited to the Christian Endeavorers on account of their large numbers. The convention proper will begin tomorrow morning in Saengerfest Hall.
